

# Doyen SK10

Rinsing agent with water softener for cleaning and disinfection appliances, slightly acidic

## Application / dosage

- > **Doyen SK10** is for professional use only

**Dosage:** 0,5 – 7,0 ml / l

- > The dosing is done automatically
- > Use by qualified personnel only

## Product features

- > Effective softening of the water
- > Slightly acidic bedpan rinse aid with softener for cleaning and disinfection devices
- > Ensures stain-free, shiny care dishes
- > Represents an ideal combination of rinse aid and softener
- > Prevents limescale from settling in the steam generators, on the care utensils, in the rinse chamber and pipelines
- > Suitable for low water hardness

## Application

- > Particularly suitable for cleaning and disinfection devices with thermal disinfection

## Important information

- > Do not mix with other products, do not transfer product into other containers.
- > Tanks, pipes and dosing devices must be rinsed with water before changing products.
- > The operating instructions of the device manufacturer must be observed.

### Marking:

Doyen SK10 complies with European guidelines for medical devices.

If a serious incident occurs with this product, it must be reported to the manufacturer and the relevant national authority.

# Doyen SK10

Rinsing agent with water softener for cleaning and disinfection appliances, slightly acidic
