

etolit 6000

Liquid detergent for glasses, alkaline, chlorine-free

Application / Dosage

- > **etolit 6000** is for professional use only
- > Can be used with the following water hardness: Hardness range 1
- > If the water is high in salt or very hard, a special water treatment system must be used to avoid mineral deposits on the wash ware
- > For a perfect rinsing result the conductivity of the raw water should not exceed 100 µS/cm
- > The temperature of the main washing zone should be at least 60°C

Dosage: 1,5 – 2,5 g/l

- > The concentration of the dosage changes depending on the degree of contamination of the wash ware and the water quality on site
- > The dosing is carried out by an automatic dosing system: etolmat boy, etolmat 812, etolmax 812
- > Suitable for all automatic dosing units

Product Features

- > Excellent cleaning power
- > With glass protection
- > Effective for light food colouring residues
- > Environmentally friendly and odourless as it is chlorine-free
- > Delivers optimum rinsing results in combination with etolit GT 100

Application

- > Ideal for cleaning glass
- > Not suitable for cleaning aluminium
