

etolit 8100

Liquid dishwashing detergent, alkaline, chlorine-free, special hardness-binding properties

Application / Dosage

- > **etolit 8100** is for professional use only
- > Can be used with the following water hardness: all
- > In case of salty or very hard water, a special water treatment should be used for optimum rinsing performance
- > The temperature of the main washing zone should be at least 60°C

Dosage: 2 – 5 g/l

- > The concentration of the dosage changes depending on the degree of contamination of the wash ware and the water quality on site
- > The dosing is carried out by an automatic dosing system: etolmat boy, etolmat 812, etolmax 812
- > Suitable for all automatic dosing units

Product Features

- > Designed for use with medium and high water hardness
- > Excellent starch dissolving capacity
- > Exceptionally effective grease dissolving capacity
- > Effective for food colouring residues
- > Excellent cleaning power
- > Environmentally friendly and odourless as it is chlorine-free
- > Delivers optimum rinsing results in combination with etolit rinse aids

Application

- > Cleans particularly powerful and intensively alkali-resistant wash ware such as porcelain, stainless steel and plastic
- > Is also suitable for glass
- > Not suitable for cleaning aluminium
- > Designed for use in basket transport, hood and under-table dishwashers

Important Information

- > **etolit 8100** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers
- > Store and transport product only in the original container
- > Containers, pipes and dosing devices must be rinsed with water before changing the product
- > The operating instructions of the Dishwasher manufacturer must be observed

etolit 8100

Liquid dishwashing detergent, alkaline, chlorine-free, special hardness-binding properties

Technical Data

- > Colour..... Colorless liquid
- > Density..... 1.3 g/ml
- > pH-value 14
- > Storability..... 4 years
- > Storage conditions.... Between -10 and 30°C

Ingredients

Ingredients according to the detergents regulation:
5-15 % phosphates
less than 5 % phosphonates

- > Chlorine: no
- > Phosphate: yes
- > NTA: no
