

# etolit Descaler Powder

Descaling agent, high concentrate, acidic, quickly soluble

## Application / Dosage

> **etolit Descaler Powder** is for professional use only

### Dosage: depending on application

> Dosing is done manually

**Descaling of a dishwasher:** Circulate 300 - 500 g / 10 l water at 50 - 60°C for 20 min, remove dishes beforehand and turn off the detergent dosage. After descaling, refill the machine, drain and rinse thoroughly, then restart the detergent dosage.

**Decalcifying a coffee machine:** 20 - 50 g / 1 l water at 50 - 60°C and 20 min soaking time, after decalcifying rinse machine several times with clear water.

**Decalcification by immersion:** 50 g / 1 l water with 50 - 60°C and max. 60 min. exposure time, rinse decalcified parts several times with clear water.

- > Depending on the type and strength of the calcification, increase the dosage and repeat the process
- > If necessary, the descaling process can be supported with a brush.

## Product Features

- > Removes scale deposits and incrustations
- > Prevents heat loss through calcified heating elements
- > Acts quickly and intensively
- > Ensures the functionality and contributes to maintaining the value of the dishwashers and appliances

## Application

- > Suitable for all acid-resistant materials
- > Suitable for dishwashers, coffee machines, heat baths, hot water heaters and combi steamers

## Important Information

- > **etolit Descaler Powder** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers

# etolit Descaler Powder

Descaling agent, high concentrate, acidic, quickly soluble

## Technical Data

- > Colour..... White powder
- > Density..... 1,2 g/ml
- > pH-value ..... 1
- > Storability..... 4 years
- > Storage conditions.... Between -10 and 40°C

## Ingredients

Ingredients according to the detergents regulation:  
Meets the requirements of the detergents regulation

- > Chlorine: no
- > Phosphate: no
- > NTA: no

## Residual Emptying/ Disposal

- > Empty containers are recyclable and can be disposed of by the end consumer via DSD
- > Information on the disposal of product residues can be found in the respective safety data sheet

## Sales Units

Tin 10x 1 kg  
Art. no.: 2000032

Bucket 5 kg  
Art. no.: 2000031

## Hazard information/ Environmental factors
