

etolit GT 100

Liquid rinse aid for glasses, concentrated, acidic

Application / Dosage

- > **etolit GT 100** is for professional use only
- > Can be used with the following water hardness: Hardness range 1
- > If the water is high in salt or very hard, a special water treatment system must be used to avoid mineral deposits on the wash ware
- > For a perfect rinsing result the conductivity of the raw water should not exceed 100 $\mu\text{S}/\text{cm}$

Dosage: 0,1 – 0,3 g/l

- > The concentration of the dosage depends on the nature of the wash ware and the water quality on site
- > The dosing is done by an automatic dosing system: etolmat KSS, etolmax KSS
- > Suitable for all automatic dosing units

Product Features

- > Especially suitable for soft water
- > Even wetting and drip- and streak-free drying especially for glass
- > Brilliant gloss
- > Suitable for all types of drinking glasses and glass types with decoration
- > Tasteless and odourless
- > Beer foam friendly composition
- > Prevents calcification of the rinsing system
- > Delivers optimum rinsing results in combination with etolit 6000

Application

- > Ideal for use with glass
- > Designed for use in basket transport, hood and under-table dishwashers
