

# etolit GT 400 P

Liquid rinse aid for plastics, highly concentrated, acidic

## Application / Dosage

- > **etolit GT 400 P** is for professional use only
- > Can be used with the following water hardness: all
- > If the water is high in salt or very hard, a special water treatment system must be used to avoid mineral deposits on the wash ware

**Dosage: 0,1 – 0,5 g/l**

- > The concentration of the dosage depends on the nature of the wash ware and the water quality on site
- > The dosing is done by an automatic dosing system: etolmat KSS, etolmax KSS
- > Suitable for all automatic dosing units

## Product Features

- > Uniform wetting and drip- and streak-free drying especially for plastics
- > Highly concentrated and therefore very productive
- > Prevents calcification of the rinsing system
- > Has a foam-reducing effect
- > Delivers optimum rinsing results in combination with etolit detergents

## Application

- > Ideal for use with porcelain, stainless steel, plastic and glass
- > Designed for use in conveyor belt and basket transport, hood and under-table dishwashers

## Important Information

- > **etolit GT 400 P** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers
- > Store and transport product only in the original container
- > Containers, pipes and dosing devices must be rinsed with water before changing the product
- > The operating instructions of the dishwasher manufacturer must be observed

# etolit GT 400 P

Liquid rinse aid for plastics, highly concentrated, acidic

## Technical Data

- > Colour..... Colorless fluid
- > Density..... 1,0 g/ml
- > pH-value ..... 2
- > Storability..... 4 years
- > Storage conditions.... Between 5 and 30°C

## Ingredients

Ingredients according to detergent regulations:  
15-30 % non-ionic surfactants

- > Chlorine: no
- > Phosphate: no
- > NTA: no

## Residual Emptying/ Disposal

- > Empty containers are recyclable and can be disposed of by the end consumer
- > Information on the disposal of product residues can be found in the respective safety data sheet

## Sales Units

Can 10 l  
Art.-No.: 2001334

Can 25 kg  
Art.-No.: 2001335

Barrel 120 kg  
Art.-No.: 2001336

Can 5 l  
Art.-No.: 2001333

Container 500 kg  
Art.-No.: 2001337
