

etolit GT 400

Liquid rinse aid for plastics, highly concentrated, acidic

Application / Dosage

- > **etolit GT 400** is for professional use only
- > Can be used with the following water hardness: all
- > If the water is high in salt or very hard, a special water treatment system must be used to avoid mineral deposits on the wash ware

Dosage: 0,1 – 0,5 g/l

- > The concentration of the dosage depends on the nature of the wash ware and the water quality on site
- > The dosing is done by an automatic dosing system: etolmat KSS, etolmax KSS
- > Suitable for all automatic dosing units

Product Features

- > Uniform wetting and drip- and streak-free drying especially for plastics
- > Highly concentrated and therefore very productive
- > Prevents calcification of the rinsing system
- > Has a foam-reducing effect
- > Delivers optimum rinsing results in combination with etolit detergents

Application

- > Ideal for use with porcelain, stainless steel, plastic and glass
- > Designed for use in conveyor belt and basket transport, hood and under-table dishwashers

Important Information

- > **etolit GT 400** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers
- > Store and transport product only in the original container
- > Containers, pipes and dosing devices must be rinsed with water before changing the product
- > The operating instructions of the dishwasher manufacturer must be observed

etolit GT 400

Liquid rinse aid for plastics, highly concentrated, acidic

Technical Data

- > Colour..... Colorless fluid
- > Density..... 1,0 g/ml
- > pH-value 2
- > Storability..... 4 years
- > Storage conditions.... Between 5 and 30°C

Ingredients

Ingredients according to the detergents regulation:
15-30 % non-ionic surfactants

- > Chlorine: no
- > Phosphate: no
- > NTA: no

Residual Emptying/ Disposal

- > Empty containers are recyclable and can be disposed of by the end consumer via DSD
- > Information on the disposal of product residues can be found in the respective safety data sheet

Sales Units

Can 10 l
Art.-No.: 2005772

Can 25 kg
Art.-No.: 2000036

Barrel 120 kg
Art.-No.: 2005264

Container 500 kg
Art.-No.: 2000733
