

etolit GT 500

Liquid rinse aid, highly concentrated, neutral, particularly foam reducing

Application / Dosage

- > **etolit GT 500** is for professional use only
- > Can be used with the following water hardness: up to 3°dH
- > If the water is high in salt or very hard, a special water treatment system must be used to avoid mineral deposits on the wash ware

Dosage: 0,1 – 0,5 g/l

- > The concentration of the dosage depends on the nature of the wash ware and the water quality on site
- > The dosing is done by an automatic dosing system: etolmat KSS, etolmax KSS
- > Suitable for all automatic dosing units

Product Features

- > Has strong foam-reducing properties
- > Highly concentrated and therefore very productive
- > Uniform wetting as well as drip- and streak-free drying of mixing dishes
- > Delivers optimum rinsing results in combination with etolit detergents

Application

- > Ideal for use with porcelain, stainless steel, plastic and glass
- > Designed for use in conveyor belt and basket transport, hood and under-table dishwashers

Important Information

- > **etolit GT 500** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers
- > Store and transport product only in the original container
- > Containers, pipes and dosing devices must be rinsed with water before changing the product
- > The operating instructions of the dishwasher manufacturer must be observed

etolit GT 500

Liquid rinse aid, highly concentrated, neutral, particularly foam reducing

Technical Data

- > Colour..... Blue liquid
- > Density..... 1,0 g/ml
- > pH-value 6
- > Storability..... 4 years
- > Storage conditions.... Between 5 and 30°C

Ingredients

Ingredients according to the detergents regulation:
More than 30 % non-ionic surfactants
Less than 5 % preservative

- > Chlorine: no
- > Phosphate: no
- > NTA: no

Residual Emptying/ Disposal

- > Empty containers are recyclable and can be disposed of by the end consumer via DSD
- > Information on the disposal of product residues can be found in the respective safety data sheet

Sales Units

Can 10 l
