

etolit GT 600

Liquid universal rinse aid, acidic

Application / Dosage

- > **etolit GT 600** is for professional use only
- > Can be used with the following water hardness: Hardness range 1
- > If the water is high in salt or very hard, a special water treatment system must be used to avoid mineral deposits on the wash ware

Dosage: 0,1 – 0,7 g/l

- > The concentration of the dosage depends on the nature of the wash ware and the water quality on site
- > The dosing is done by an automatic dosing system: etolmat KSS, etolmax KSS
- > Suitable for all automatic dosing units

Product Features

- > Especially economical with treated water
- > Ideal for demineralized water
- > Uniform wetting as well as drip- and streak-free drying of mixing dishes
- > Brilliant gloss
- > Tasteless and odourless
- > Prevents calcification of the rinsing system
- > Delivers optimum rinsing results in combination with etolit detergents

Application

- > Ideal for use with porcelain, stainless steel, plastic and glass
- > Designed for use in conveyor belt and basket transport, hood and under-table dishwashers

Important Information

- > **etolit GT 600** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers
- > Store and transport product only in the original container
- > Containers, pipes and dosing devices must be rinsed with water before changing the product
- > The operating instructions of the dishwasher manufacturer must be observed

etolit GT 600
