

etolit Tauchreiniger CL

Immersion cleaner, mildly alkaline, containing chlorine

Application / Dosage

> **etolit Tauchreiniger CL** is suitable for professional only

**Dosage: 50-150 ml / 10 l water at
50-70°C and
5-10 min application time
Manual dosage**

- > Dip the dishes completely and then rinse it in the dishwasher as usual
- > Longer exposure times support the effect and do not damage the cutlery

Product Features

- > Suitable for basic cleaning of food colouring deposits
- > For immersion cleaning of stubborn deposits
- > Effectively supports the removal of dried-on food residues and starch deposits
- > Protects against the chemical attack of food residues containing chloride or acid
- > Gentle on materials and preserving value
- > In case of product residues on the dishes there is no disturbing foam formation during machine washing

Application

- > Is effective against coffee and tea residues as well as food colorings
- > Recommended for daily pre-treatment using the dipping process
- > Is also suitable for basic and maintenance cleaning of coffee machines and storage containers (thermos flasks and glass containers)
- > Not suitable for silver
- > Not suitable for aluminium

Important Information

- > **etolit Tauchreiniger CL** is suitable for all food processing companies
- > Do not mix with other products, do not transfer product into other containers
- > Close the lid again after removal!
Product can clump together due to moisture and lose its effectiveness
